

IARP - Ohio

International Association Of
Rehabilitation Professionals

MEMORANDUM

June 1, 2011

To: IARP- Ohio Members

From: Robin Markey, President IARP-Ohio Chapter 2010- 2011

Subject: IARP- Ohio Board Position regarding professional disclosure

We support the position that it is an ethical and appropriate duty to fully disclose any relationship (financial or otherwise) that a rehabilitation professional has with an employer, managed care organization, or other referral source to the claimant that we are working with. In addition, we support the position that if an injured worker raises any concerns regarding this relationship, that rehabilitation professional will excuse him/herself from the case.
